Inauguration of Language Study Forum: A Report

Report:

All Language Departments have organized the program of Inauguration of Language Study Forum on 28th August 2023 under the guidance of Principal Dr. N.N. Gawande. Asst. Prof. Mr. Sachin Gavai has given introductory speech. Asso. Prof. Dr. R. P. Zanke was present as the President on this occasion. Mr. Abhijeet Wadalkar, Poet, Singer and Asst. Prof. Shree Shivaji Science College, was present as the inaugural chief guest of the program.

Well-known poet and singer Mr. Abhijeet Wadalkar expressed that the ownership of language is not depend on religion, sect, color, sect and power. Language is the only caricature of knowledge, feeling and thought. Language plays an important role in human development and by reading literature the sensitivity of a human being increases and his horizons of thought widen. Wadalkar Sir has sung a beautiful song which captivated the audience by his melodious voice.

The program was chaired by the Dr. Ravindra Zanke. He told that college has created essential facilities for the all-round development of students in this rural college and students should take maximum advantage of them and enrich their lives. Thus, he explained the role and importance of language in human development.

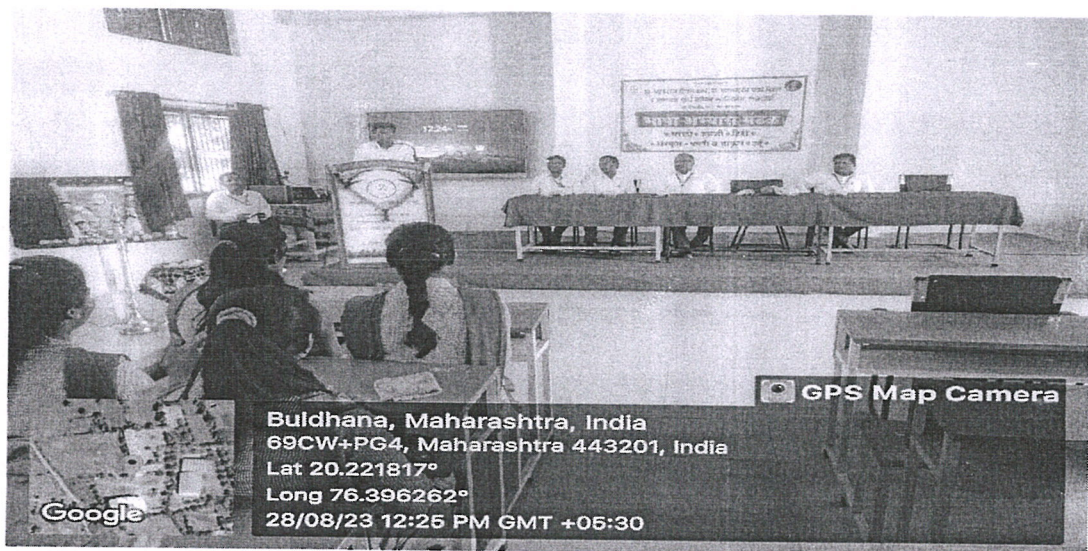

From the introduction of the program, Prof. Sachin Gavai stated the purpose behind the establishment of the language study forum and assured that the language study board will continue to function throughout the year for the linguistic development of the students. Program anchoring was done by Dr. Sagar Gavai. Vote of thanks presented by Ku. Sarika Ingle . देशोन्नती

भाषा ज्ञान, भावना व विचाराची वाहक असते - प्रा. अभिजीत वडाळकर गावंडे महाविद्यालयात भाषा अभ्यास मंडळाचे थाटात उद्घाटन

देशोन्नती वृत्तसंकलन...

विखल्ली - भाषा ही कोणत्याही धर्माची, पंथाची, रंगाची, लिंगाची, सत्तेची जहागीरदारी नसते तर भाषा ही फक्त ज्ञान आणि भावना व विचाराची वाहक असते. जागतिकीकरणच्या रेट्यान जगालील अनेक भाषा संपण्याच्या मार्गावर असून त्या त्या समाजाच्या संस्कृतीचे दर्शन घडविणारी भाषा टिकवून ठेवण्याची जबाबदारी प्रत्येकाची आहे असे मत प्रा. अभिजीत वडाळकर यांनी व्यक्त केले. ते स्व. भास्करराव शिंगणे कला, प्रा. नारायणराव गावंडे विज्ञान व आशाळता गावंडे वर्णज्य महाविद्यालयात भाषा अभ्यास मंडळाच्या उद्घाटन प्रसंगी उद्घाटक म्हणून बोलत होते.

महाविद्यालयाचे प्राचार्य डॉ. निलेश गावंडे यांच्या मार्गदर्शनात पार पडलेल्या या कार्यक्रमाच्या अध्यक्षस्थानी इतिहास विभाग प्रमुख डॉ. रवींद्र झनके उपस्थित होते. तर प्रमुख अतिथी म्हणून मराठी विभाग प्रमुख प्रा. गणेश काकडे, हिंदी विभाग प्रमुख डॉ. राजू पोपळपट, पाली व प्राकृत विभाग प्रमुख डॉ. राजेश बोरपांगार, व संस्कृत विभागाचे प्रा. विवेदी उपस्थित होते.

अध्यक्षीय मनोगत व्यक्त करताना डॉ. रवींद्र झनके यांनी मानवी विकासाला

भाषेचे महत्वपूर्ण योगदान असून साहित्याच्या वाचनाने मानवाच्या संवेदनशीलतेमध्ये वाढ होऊन त्याच्या विचाराच्या कक्षा रुदायनात. सामाजिक मागासील विद्यार्थ्यांमध्ये प्रबुध क्षमता असून साहित्याच्या वाचनाने त्याच्या क्षमतांचा विकास होऊन सघर्ष करण्याची प्रेरणा निर्माण होत असते. आणि सघर्षाला प्रेरित करते तेच खरे साहित्य असल्याचे मत मांडले. प्रा. विवेदी यांनी साहित्य हा समाजाचा आरसा समाजातील सर्वच यत्नाबाईट घटनांचे प्रतिबिंब साहित्यात पडलेले दिसून येते. संवेदनशील साहित्यिक ज्या समाजात जगतो त्या समाजाचे वास्तव तो शब्दबद्ध करतो असे

म्हणून त्यांनी साहित्याने सामाजिक वास्तवाची मांडणी करावी असे मत व्यक्त केले.

कार्यक्रमाच्या प्रास्ताविकाने प्रा. सचिन गवई यांनी भाषा अभ्यास मंडळाच्या स्थापनेमागील उद्देश सांगून विद्यार्थ्यांच्या भाषिक विकासाच्या दृष्टीने भाषा अभ्यास मंडळ वर्षभर कार्यरत राहील याची ग्वाही दिली. सूत्रसंचालन डॉ. सागर गवई यांनी केले. तर आमदार कु. सारिका इंगळे हिने मानले. कार्यक्रमाला महाविद्यालयातील प्रा. प्रवीण शिवरे, प्रा. नितीन बत्तारकर भाषा अभ्यास मंडळाचे विद्यार्थी उपस्थित होते. भाषा ज्ञान, भावना व विचाराची वाहक असते - प्रा. अभिजीत वडाळकर गावंडे महाविद्यालयात भाषा अभ्यास मंडळाचे थाटात उद्घाटन

देशोन्नती वृत्तसंकलन...

विखल्ली भाषा ही जेव्हा त्याही धर्माची, पंथाची, रंगाची, लिंगाची, सत्तेची जहागीरदारी नसते तर भाषा ही फक्त ज्ञान आणि भावना व विचाराची वाहक असते. जागतिकीकरणच्या रेट्यात जगातील जनेक भाषा संपण्याच्या मार्गावर असून त्या त्या समाजाच्या संस्कृतीचे दर्शन घडविणारी भाषा टिकवून ठेवण्याची जबाबदारी प्रत्येकाची आहे असे मत प्रा. अभिजीत वडाळकर यांनी व्यक्त केले. ते स्व. भारकरराव शिंगणे कला, प्रा. नारायणराव गावंडे विज्ञान व आशाळता गावंडे वाणिज्य महाविद्यालयात भाषा अभ्यास मंडळाच्या उद्घाटन प्रसंगी उद्घाटक म्हणून बोलत होते.

महाविद्यालयाचे प्राचार्य डॉ. निलेश गावंडे यांच्या मार्गदर्शनात चार पडलेल्या या कार्यक्रमाच्या अध्यक्षस्थानी इतिहास विभाग प्रमुख डॉ. रवींद्र झनके उपस्थित होते. तर प्रमुख अतिथी म्हणून मराठी विभाग प्रमुख प्रा. गणेश काकडे, हिंदी विभाग प्रमुख डॉ. राजू पोपळघट, माली व प्राकृत विभाग प्रमुख डॉ. राजेश चौरपांगार, व संस्कृत विभागाचे प्रा. विवेदी उपस्थित होते.

अध्यक्षीय मनोगत व्यक्त करताना डॉ. रवींद्र झनके यांनी मानवी विकासात

भाषेचे महत्वपूर्ण योगदान असून साहित्याच्या वाचनाने मानवाच्या संवेदनशीलतेमध्ये शाळ होऊन त्याच्या विचाराच्या कक्षा रुंदावतात. ग्रामीण भागातील विद्यार्थ्यांमध्ये प्रबुद्ध समता असून साहित्याच्या वाचनाने त्यांच्या क्षमतांचा विकास होऊन सधर्प करण्याची प्रेरणा निर्माण होत असते. आणि सधर्पाला प्रेरित करते तेच खरे साहित्य असल्याचे मत मांडले. प्रा. विवेदी यांनी साहित्य हा समाजाचा आरसा समाजातील सर्वथ बऱ्यावाईट घटनांचे प्रतिबिंब साहित्यात पडलेले दिसून येते. संवेदनशील साहित्यिक ज्या समाजात जगतो त्या समाजाचे वास्तव तो शब्दबद्ध करतात असे

म्हणून त्यांनी साहित्याचे सामाजिक वास्तवाची मांडणी करायी असे मत व्यक्त केले.

कार्यक्रमाच्या प्रास्ताविकातून प्रा. सचिन गवई यांनी भाषा अभ्यास मंडळाच्या स्थापनेमागील उद्देश सांगून विद्यार्थ्यांच्या भाषिक विकासाच्या दुष्टीने भाषा अभ्यास मंडळ वर्षभर वर्तवत राहील याची खात्री दिली. सूत्रसंचालन डॉ. सागर गवई यांनी केले. तर आमारे कु. सारिका इंगळे हिने मानले. कार्यक्रमाला महाविद्यालयातील प्रा. प्रवीण शिवरे, प्रा. नितीन चतरकर भाषा अभ्यास मंडळाचे विद्यार्थी उपस्थित होते. National Sport Day Report

29 august 2023

Like every year, this year 29th August was celebrated as National Sports Day in the college. In the program of the National Sports Day, first of all, the President of the program and Principal of the college, Dr. N. N. Gawande Saheb, the chief guest of the program, Dr. R. P. Zanke, and the organizer of the program, Mr. A. G. Barde, head of the department of sports and physical education of the college. The lamp was lit. Later, the image of hockey wizard Major Gnyanchand was worshiped. In the chief guest speech, Zanke said how important the role of sports is in the life of the students. Also, the principal of the college, Dr. N. N. Gawande, highlighted the life of Major Gnyanchand and his achievements in hockey and challenged the students to keep the ideal of Major Gnyanchand in front of their eyes. Mr. A. G. Barde gave a vote of thanks for the program.

On the occasion of National Sports Day, the college organized a 5 km running race for the students of the college in which a total of 22 students of the college participated. The Head of the Department of History Dr. R.P.Zanke started the running race by showing the green flag. This competition started from the college and ended in the college by going through Lavala, Mohadi. In this competition, Krishna R. Kharat of B.A. III is first with 20.22 minutes, Najimkhan Yunuskhan Pathan of B.S. I is 22. 27. minutes is second. Chetan Prakash Kharat with 27. 34 minutes won the third place. The Principal of the college Dr. N. N. Gawande congratulated the winning players and wished best for the future.

For making the interest of the students in sports and games, on the occasion of National Sports Day, an online quiz was organized for all the students of the college, in which a total of 30 questions were based on general knowledge of sports and each question carried 2 marks. A certificate was distributed through e-mail to every student who secured at least 45 percent marks. A total of 155 students participated in this Quiz Competition organized by the Department of Sports and Physical Education . Director of Physical Education and Sports A.G. Barde took the efforts to make activity successful. The National Sports Day was celebrated enthusiastically and students participated with great interest.

Tree Plantation**

The NSS has organized Tree Plantation program. This activity is very much important for the future generation. Trees provide numbers of necessary things which are useful for our daily life. Without trees, nature is dangerous for all the human beings. In the program, Dr.R.V.Popalghat provided his guidance to all the students & the students took oath to plant at least one tree on their birthday. The students agreed on the importance of nature and especially trees which are sources of all the life on earth. In this way the tree plantation program was successful activity.

Seminar

Report:

On 17th October 2023, Department of Pali & Prakrit organized Seminar was conducted on the topic "**Pali Bhasha Parichya**: Pali Bhasha Parichya, which translates to "Introduction to the Pali Language," is a foundational study that plays a pivotal role in understanding the teachings of Buddhism. The seminar aims to provide an overview of the significance, content, and objectives of Pali Bhasha Parichya seminars, making it a valuable resource for scholars, practitioners, and those interested in delving into the world of Pali literature. The seminar on Pali Bhasha Parichya serves as an entry point to the study of the Pali language and the vast body of Buddhist literature composed in Pali. It is an essential step for those who seek a deep understanding of Buddhism and its original teachings. By equipping participants with linguistic skills and offering a gateway to explore the spiritual and intellectual heritage of Buddhism through its authentic texts, Pali Bhasha Parichya seminars contribute significantly to the dissemination and preservation of this invaluable knowledge.

Following the presentation, a question-and-answer session was held, where participants engaged in discussions and inquiries about the Pali language and its role in the context of Buddhist studies. This interactive session allowed for a deeper exploration of the topic and addressed specific interests of the audience.

Botanical Excursion report 2023.24

Tour In charge:	Mr. A. D. Padwal (Assistant Professor, Department of Botany)
Staff Members:	Mr. S. R. Nagmote; Mr. N. G. Kele; Mrs. Sagane Madam (Ladies Representative), Mr. Balu Mandalkar (Non-teaching staff)
Route:	Sakharkherda – Boradi – Mehkar – Lonar - Sakharkherda
Date of tour:	21 st October 2023
Kind of vehicle:	Private Vehicle (Bus)
No. of Student:	46 (35 girls and 11 boys)
No. of Staff:	05 (04 male and 01 female)
Expenditure:	250/- per head

The total duration of the excursion was 01 day and the place visited was LONAR LAKE.

History of Lonar Lake:

Lonar Lake, also known as Lonar crater, is a notified National Geo-heritage Monument, saline, soda lake, located at Lonar in Buldhana district, Maharashtra, India. Lonar Lake is an astrobleme created by a meteorite impact during the Pleistocene Epoch. It is one of only four known hyper-velocity impact craters in basaltic rock anywhere on Earth. Lonar Lake has a mean diameter of 1.2 kilometres (3,900 ft) and is about 137 metres (449 ft) below the crater rim. The meteor crater rim is about 1.8 kilometres (5,900 ft) in diameter. Lonar Crater sits inside the Deccan Plateau – a massive plain of volcanic basalt rock created by eruptions some 65 million years ago. Its location in this basalt field suggested to some geologists that it was a volcanic crater. Today, however, Lonar Crater is understood to be the result of a meteorite impact. The water in the lake is both saline and alkaline. The crater has an oval shape. The meteorite impact came from the east, at an angle of 35 to 40 degrees. Earlier thermo luminescence analyses gave a result of 52,000 years, while recent argon-argon dating suggests that the crater is much older; it could be 570 000 years old. This is an only lake with saline water throughout the Asian continent, which is attracting the tourist day by day.

Geographical Features:

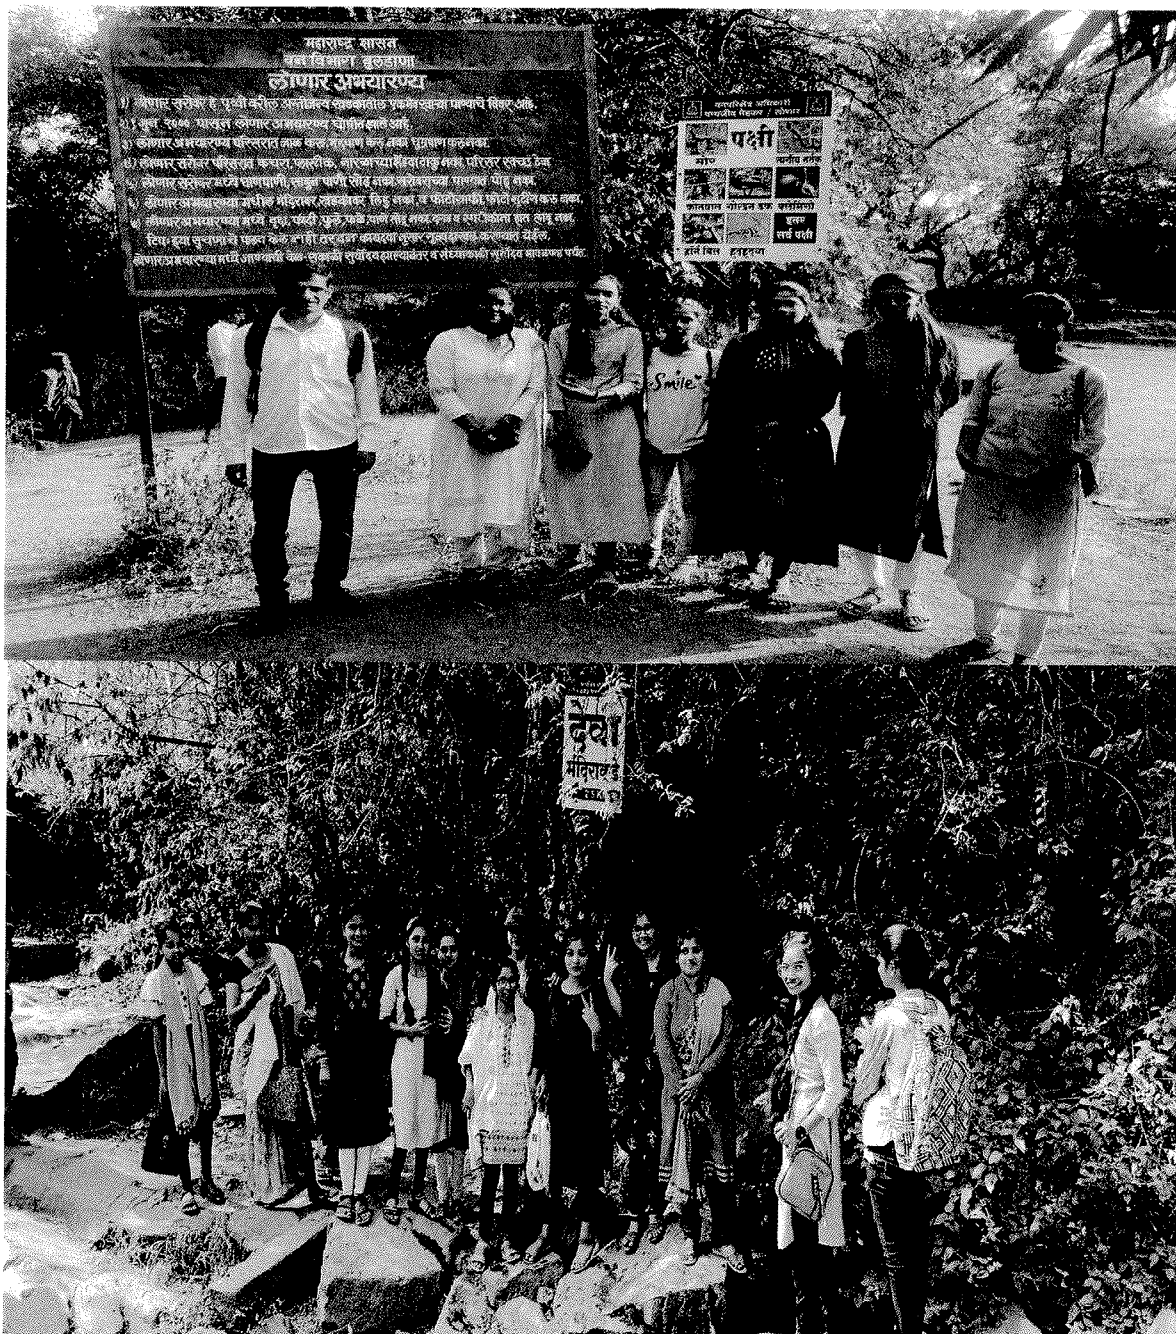

A series of small hills surround the basin, which has an oval shape, almost round, with a circumference at top of about 8 km (five miles). The sides of the basin rise abruptly at an angle of about 75°. At the base of the sides, the lake has a circumference of about 4.8 km (three miles). The slopes are covered with tree-savannah, housing teak (*Tectona grandis*), *Wrightia tinctoria*, *Butea monosperma*, and *Helicteres isora*, and with shrub-savannah housing *Acacia nilotica* and *Ziziphus mauritiana*. Along the lake shore, non-native *Prosopis juliflora* is spreading. Millet, maize, banana, and papaya are the main cultivated crops around the Lonar Lake.

LONAR LAKE

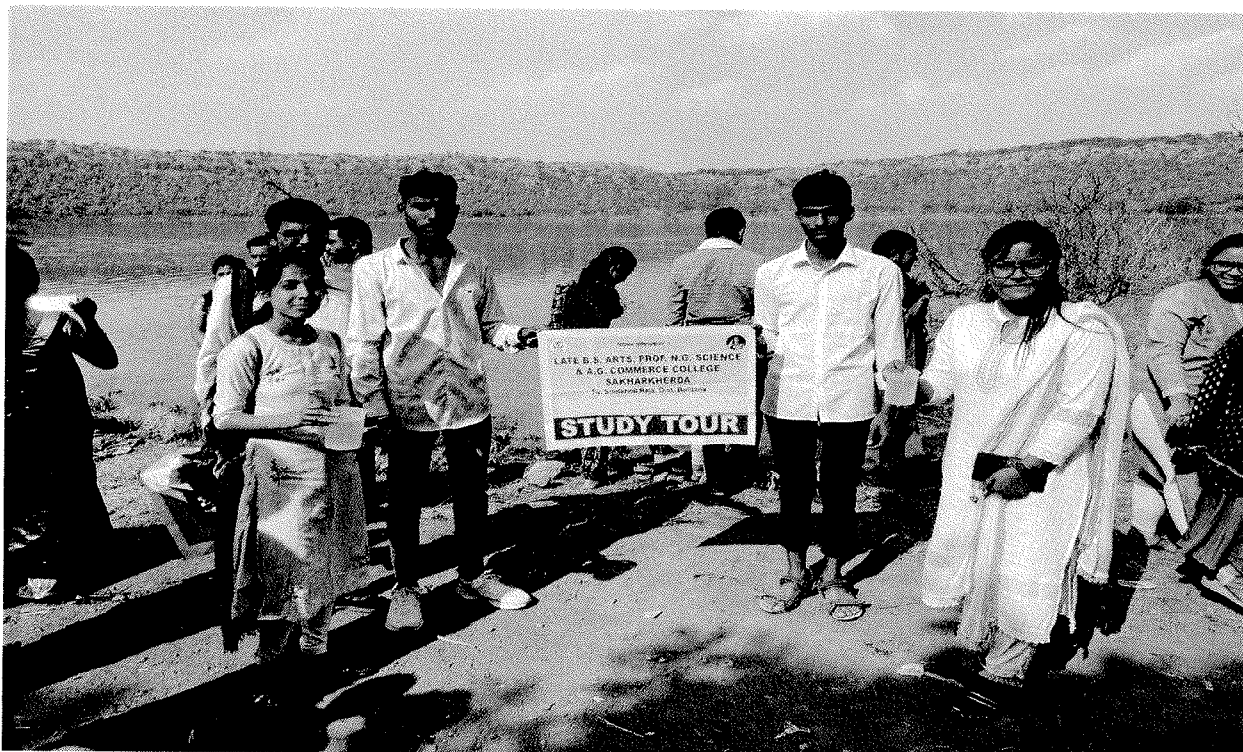

The journey for the field visit of Lonar Lake was begun from the college campus at 9.00 am. 46 student which includes 35 girls and 11 students with 05 staff member were departed in private bus. The distance of Lonar lake from college campus was about 45 km, it takes about two hours to reach their. After entering to the area of Lonar Lake lunch break was taken for half hour (No plastic and food material was carried to the Lake area). Then the journey was started from the fresh water resource to collect the plant specimens and sample water. Plant specimens of *Tectona*

grandis, Wrightia tinctoria, Butea monosperma, Helicteres isora, Acacia nilotica, Ziziphus mauritiana and *Prosopis juliflora* were collected from the surrounding area.

Snapshot during the collection of Plant specimens at Lonar Lake

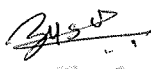

The water sample collected from the lake was brought to the laboratory for a systematic reduction of a known or unknown entity (a solute, organism, etc.) by serial dilution method.

Collection of Water sample from Lonar Lake

Outcomes of the Excursion:

The excursion, thus arranged, proved to be extremely helpful to the students in understanding the ecosystem around and within the Lonar Lake. This helps the students not only in identifying the various plant species but also develops an understanding about the favorable and non favorable environmental conditions. It also helps the students to improve the practical knowledge for flora around the saline lake. The excursion would certainly help the students to develop research interest in the field of plant biology, microbiology and other allied fields.

The total duration of the excursion was 01 day and the place visited was Koradi Fish Seed Production Center. The Koradi Government Fish Seed Production Centre, Mehkar, Distt. Buldana, is a significant establishment in the aquaculture industry, renowned for its pioneering efforts in fish seed production and distribution. Our study tour aimed to gain insights into the center's operations, methodologies, and its overall impact on the local aquaculture community.

The Koradi Fish Seed Center boasts state-of-the-art infrastructure and modern facilities designed to facilitate the efficient production of high-quality fish seeds. The center comprises several key components, including:

- Hatchery units equipped with advanced technology for controlled breeding and hatching processes.
- Ponds and tanks with optimal water quality management systems to ensure a conducive environment for the growth and development of fish seeds.
- Research laboratories for conducting studies on fish breeding, genetics, and disease control measures.
- Administrative offices for managing the center's operations and coordinating outreach programs.

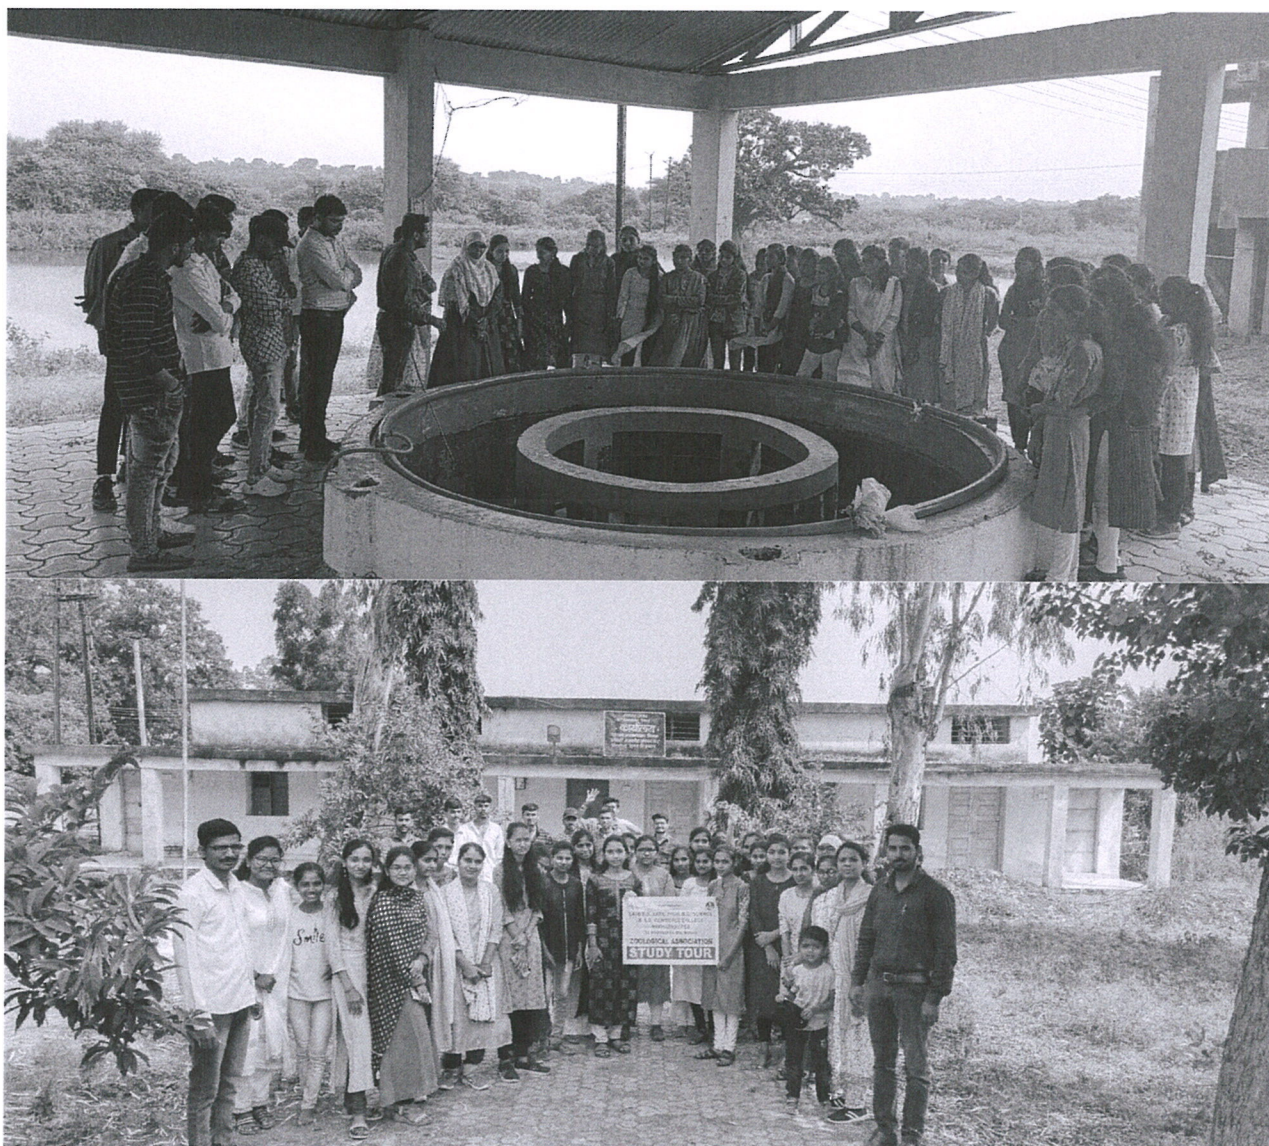

During our visit, **Mr. Nikhi Salunke, Assistant Fisheries Development Officer** illustrated activities and processes carried out at the Koradi Fish Seed Center:

1. Breeding and Spawning: The center employs selective breeding techniques to ensure the production of resilient and high-yield fish seed varieties.
2. Larval Rearing: Specialized units cater to the delicate larval rearing process, ensuring the provision of appropriate nutrition and environmental conditions.
3. Health Management: Rigorous disease control measures are implemented, including regular health checks and the use of preventive treatments to maintain the health and vitality of the fish seeds.
4. Packaging and Distribution: The center follows standardized packaging protocols and efficient distribution channels to ensure the timely and safe delivery of fish seeds to various aquaculture farms and hatcheries.

The Koradi Fish Seed Center has significantly contributed to the local aquaculture community and the region's economy by:

- Providing employment opportunities for skilled workers and researchers.
- Offering training and educational programs for local fish farmers, thereby enhancing their understanding of advanced aquaculture techniques.
- Contributing to the sustainable development of the aquaculture sector by promoting responsible fish farming practices and fostering environmental conservation efforts.

Outcomes of the Excursion:

Our study tour of the Koradi Fish Seed Center highlighted its pivotal role in advancing the aquaculture industry and promoting sustainable fish farming practices. The center's commitment to innovation, research, and community engagement serves as a commendable model for similar establishments seeking to achieve excellence in fish seed production and distribution.

Report on 'Poster Presentation Competition'

English Department of L.B.S. Arts, P.N.G. Science and A.G. Commerce College, Sakharkherda organized the Poster Presentation Competition on 6th November, 2023. The main goal of this event is to enhance English Grammar and English Literature knowledge of the students and also it develops the presentation skills of the students.

On this occasion, Dr. Nilesh Gawande, (Principal) motivated students to participate in such activities and congratulated the organizing committee. Twenty three students from arts and science faculty displayed their artistic skills through an array of posters with immense enthusiasm and made beautiful posters. The posters described various concepts and ideas of English Grammar and Literature.

All the posters evaluated by HoD of the English Department Dr.S.V. Jawanjal, and praised for their sketches and paintings. Prof. S.R. Gawai and Prof. N.G. Chatarkar took the efforts to successfully organize the activity of the department. The Competition was concluded by a vote of thanks given by Prof.P.S. Shimbre. The competition was a great success and memorable learning event for the students. Following three students were awarded certificates for their presentation skills.

Venue	Ratali
Organized by	Dept. of Sociology
Co-ordinator	Dr. S. R. Dutonde
Number of Beneficiaries	30
Nature	Extra-Curricular
Brief information about the activity	This report examines the results of a survey conducted by department of sociology college students at an adopted village in ratali. The main objective of the survey was to assess the social problems faced by the villagers, including poverty, illiteracy, health issues, and lack of development. The survey was conducted on a sample of 100 villagers, with the data collected and analyzed to draw conclusions. The survey results revealed that the majority of villagers reported that poverty and illiteracy were the most pressing social problems in their adopted village. Other issues highlighted by the survey included health issues lack of development and lack of access to basic amenities. The survey results indicate that poverty and illiteracy are the most serious social problems faced by the villagers. Moreover, health issues, lack of development, and lack of access to basic amenities are also significant issues in the

	village. This indicates that the village is in need of interventions from the government and other organizations to improve the lives of the villagers. This report has examined the results of a survey conducted by college students at an adopted village in ratoli. The results indicate that poverty and illiteracy are the most serious social problems faced by the villagers.

For session-2023-24 Pali and Prakrit Study Board was established and at the same time it was planned to conduct a study tour to Dhammagiri Buddha Vihara Buldhana and Ajanta Caves in the first semester to study tourist places on behalf of the study board. According to On 20/10/2023, on behalf of the Department Pali and Prakrit, the students participating in this study tour were informed and with the prior permission of the Honorable Principal of the College, On the date of 03/11/ 2023 B.A Part- One, Two, Three and B. Com part-one with a total of 38 students started the travel to tourist place study tour at seven in the morning. First of all 08.50 am. Reached Dhammagiri Buddha Vihara at Buldhana. After paying obeisance and explaining the importance of Buddha Vihara, we reached Ajanta Caves at twelve o'clock in the afternoon. Along with Prof. Dr. Ravindra Zanke (Department of History) and Prof. Mrs. Ragini Tapadia (Department of Home Economics) was the colleague.

With the cooperation and consent of the Survey Corporation of India, all the participating students got a reasonable understanding of the social and religious conditions of the time along with the excellent sculpture, sculpture, painting, architecture of Ajanta Caves along with the biography of Gautama Buddha and various events in his life. In the study tour of this cave in the proximity of the strong nature, all the tourist students gained knowledge and pleasure. After shopping for amazing handicrafts and ornaments, idols and attractive items, we left for our return journey at 5 pm. After returning at eight o'clock in the night, all the students reached their respective residences safely. Through this study tour of the Pali and Prakrit department, awareness and intimacy about the tourist place was created among the students. There was a special addition to his knowledge.

Seminar Competition

Report:

On 10th January 2024, Department of History organized Seminar Competition was conducted on the topic “**Lord Buddha: The Buddha’s Path to Enlightenment**”, this student seminar report presents a brief overview of the Suttanipath , a Buddhist scripture containing the teachings of the Buddha. It begins with a brief introduction to the Buddhist religion and its teachings. It then explains the structure of the Suttanipath, which is divided into 52 chapters, each of which contains a set of verses containing the Buddha’s teachings. The report then moves on to discuss the main themes contained in the Suttanipath, such as suffering, impermanence, karma, and the cycle of rebirth. It explains how these themes are related to the Buddhist practice of meditation and how they can help one achieve enlightenment.

The report also explores how the Suttanipath teachings can be applied to modern life, and how they can help one to lead a more mindful, meaningful existence. Finally, the report concludes with a brief discussion of how the Suttanipath can be used as a source of guidance and inspiration in today’s world. It explains how the Suttanipath can help us to cultivate a sense of peace and contentment in our lives and how its teachings can help us to live. Speaking in the Seminar is gradually bringing everyone in mainstream by boosting their self-confidence.

Report On Soil Analysis in the Nearby Region of Adopted Villages

Session: 2023-2024

Preamble:

Department of Chemistry, Late B.S. Arts, Prof. N.G. Science and A.G. Commerce college Sakharkherda organized the Project work for B.Sc.II Year students on the topic “ Soil Analysis in the Nearby region of adopted village” Ten students were selected for the project work. Analysis of soil was carried out from two different villages in the nearby region of Sakharkherda during 11 to 13 January 2024. For soil analysis students choose Sawadad and Mohadi village .

Introduction:

Soil consists of a solid phase of minerals and organic matter (the soil matrix), as well as a porous phase that holds gases (the soil atmosphere) and water (the soil solution). Accordingly, soil is a three-state system of solids, liquids, and gases. Soil is a product of several factors: the influence of climate, relief (elevation, orientation, and slope of terrain), organisms, and the soil's parent materials (original minerals) interacting over time Soil tests allow you to understand soil fertility in your fields. The accuracy of a soil test starts during the sampling process. Samples must be taken at a consistent depth and in a random nature. The objective was to collect multiple small samples representative of the field majority. The characteristics of soil within the nearby region are calculated by standard method . In this project work soil samples were collected from nearby region of sakharkherda village .

Methodology:

Random sampling is performed on uniform fields in this soil sampling technique. a global positioning system is used to keep a record of soil nutrient data the procedure can be used repeatedly for years over the same random points that are geo referenced with GPS random sampling is a sampling method that allows for the randomization of sample selection i. e, each sample has the same profitability as other samples to be selected to serve as a representation of an entire population/ it is considered as one of the most popular and simple data collection technique Analysis of soil taken many factors into consideration pH of all soil samples should be

in the acidic range. There is a significant difference of bulk density values between sample S1 and sample S2. Sample S1 contains higher bulk density as compared to sample S1. While S1 is having highest specific gravity. Whereas sample S1 contains higher Moisture content as compared to sample S2. Water holding capacity of sample S1 is greater than sample S2.

Conclusion:

The test report for the above analytical test is attached herewith. According to the study findings, as a result of agricultural production in the cultivated land, there was a decrease in the plant nutrients and physical decomposition depending upon low level of organic compound in these lands, physical structures of land should be applied by organic fertilizers and they must be enriched in plant nutrients the cultivation of land should be in minimum depth tillage should be managed to avoid formation of flow pan increasing density.

“Soil Analysis in the Nearby region of adopted village.”

Preamble:

Soil consists of a solid phase of minerals and organic matter (the soil matrix), as well as a porous phase that holds gases (the soil atmosphere) and water (the soil solution). Accordingly, soil is a three-state system of solids, liquids, and gases. Soil is a product of several factors: the influence of climate, relief (elevation, orientation, and slope of terrain), organisms, and the soil's parent materials (original minerals) interacting over time. It continually undergoes development by way of numerous physical, chemical and biological processes, which include weathering with associated erosion given its complexity and strong internal connectedness, soil ecologists regard soil as an ecosystem.

Objectives of soil sample

- Evaluation of fertility status of soil
- Estimation of the available nutrients status of soil
- Evaluation of the suitability of soil for laying garden
- Determination of acidity, salinity and alkalinity problems and
- Recommendation of the required amount of fertilizers, lime or gypsum based on soil test value.

Methodology :

- 1) In this project work soil samples were collected from nearby region of sakharkherda village . Random sampling is performed on uniform fields in this soil sampling technique. a global positioning system is used to keep a record of soil nutrient data the procedure can be used repeatedly for years over the same random points that are geo referenced with GPS random sampling is a sampling method that allows for the randomization of sample selection i. e, each sample has the same profitability as other samples to be selected to serve as a representation of an entire population/ it is considered as one of the most popular and simple data collection technique.

Name of the Village : Sawadad, Tq. Sindkhed Raja.

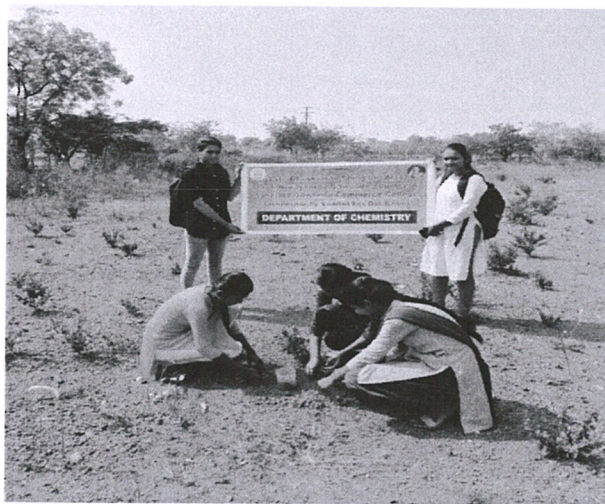

Name of the Village : Mohadi, Tq. Sindkhed Raja.

Details of samples:-

Sample code	Details of soil samples
S1	<u>Sawadad. Tq. Sindkhed Raja</u>
S2	<u>Mohadi. Tq. Sindkhed Raja.</u>

Sample Collection :-

1) Sample S1 :- Sawadad, Tq. Sindkhed Raja

2) Sample S2:- Mohadi, Tq. Sindkhed Raja

Determination of parameters are as follows :-

1) pH

Requirements- Distilled water and pH meter.

Method- Take 10 gm of air-dry soil/sediment and add 100 ml of distilled water to make a suspension of 1:10 w/v dilution. Determine the pH of suspension.

Observation table

Sample No.	Sample description	PH
S1	Acidic	5
S2	Acidic	5

Calculation- (No calculation required. Note the reading directly from pH meter screen).

2) Bulk Density

Requirements- Oven, measuring cylinder and chemical balance.

Method- Dry the soil sample in oven at 105 °C until a constant weight is attained, transfer a little dried soil to a measuring cylinder and note the volume. Record the weight of this volume of soil on a balance.

Observation table

Sample No.	Weight of soil (gm)	Volume of soil (ml)	Bulk density(gm/cm ³)
S1	44.67	40	1.11
S2	22.82	20	1.14

Calculation

Bulk density(Sample S1) (gm/cm³) = Weight of soil (gm)/Volume of soil (cm³)

$$= \frac{44.67}{40}$$

$$\text{Bulk density(Sample S1) (gm/cm}^3\text{)} = 1.11 \text{ gm/cm}^3$$

Bulk density(Sample S2) (gm/cm³) = Weight of soil (gm)/Volume of soil (cm³)

$$= \frac{22.82}{20}$$

$$\text{Bulk density(Sample S2) (gm/cm}^3\text{)} = 1.14 \text{ gm/cm}^3$$

3) Specific Gravity

Requirements- Oven, glass bottles, chemical balance.

Method- Dry the soil in an oven at 105⁰C until a constant weight is attained. Fill a pre-weighted glass bottle of known volume with dried soil and records its weight. Fill another pre-weighted glass bottle of same volume with distilled water and records its weight.

Observation table

Sample description	Initial weight of bottle l(gm) (W1)	Weight of bottle with soil (gm) (W2)	weight of bottle with soil and water(gm) (W3)	Wight of bottle with distilled water(gm) (W4)	Specific gravity
S1	245.68	345.68	628	567.15	2.55
S2	101.09	151.09	260.60	230.48	2.51

Calculations

$$G = \frac{W2 - W1}{(W4 - W1) - (W3 - W2)}$$

Where G = specific gravity

W1 = Empty weighed bottle

W2 = Bottle + soil

W3 = Bottle + soil + water

W4 = Bottle + water

$$G (\text{Sample S1}) = \frac{(645.68 - 245.68)}{(567.15 - 245.68) - (628 - 345.68)}$$

$$G (\text{Sample S1}) = \frac{100}{(321.47) - (282.72)} = \frac{100}{39.15} = 2.55$$

$$G (\text{Sample S2}) = \frac{(151.09 - 101.09)}{(230.48 - 101.09) - (260.60 - 151.09)}$$

$$G (\text{Sample S2}) = \frac{50}{(129.39) - (109.51)} = \frac{50}{19.88} = 2.51$$

4) Moisture Content

Requirements- Oven and chemical balance.

Method- Take a fresh homogenized sample of soil and weight it. Now dry it in an oven at 1050C until a constant weight is attained. Cool in a desiccators and record the final weight of sample.

Observation table

Sample description	Initial weight of soil(gm) (I)	Final weight of soil (gm) (F)	Moisture content (%)
S1	25	23.92	4.32
S2	25	24.4	2.4

Calculation

1) **Moisture content (Sample S1)** $= \frac{I-F}{I}$

$$\text{Moisture content (Sample S1)} = \frac{25 - 23.92}{25} \times 100$$

$$\begin{aligned} \text{Moisture content (Sample S1)} &= \frac{1.08}{25} \times 100 \\ &= 4.32\% \end{aligned}$$

2) **Moisture content (Sample S2)** $= \frac{I-F}{I}$

$$\text{Moisture content (Sample S2)} = \frac{25 - 24.4}{25} \times 100$$

$$\begin{aligned} \text{Moisture content (Sample S2)} &= \frac{0.6}{25} \times 100 \\ &= 0.024 \times 100 \\ &= 2.4\% \end{aligned}$$

Where I = Before weight

F = After weight

5) Water holding capacity

Requirements-Oven, perforated circular soil boxes (5.6 cm diameter, 1.6 cm height bottom perforated with holes of 0.75 mm diameter), Filter paper (what man no.1), Petridish and chemical balance.

Method-Dry the crushed soil sample in an oven at 105°C. Place a filter paper inside bottom of the circular soil box, weight the box and fill it with dried soil sample. Note the weight of box filled with dried soil. Place the box in Petridish of 10 cm diameter containing water for about 12 hours. So that water enters the box and saturates the soil. Take the box out of water wipe it dry on the outside and records its weight.

Observation table

Sample No.	weight of soil (gm) (X)	Volume of water pour into soil ml (Y)	Volume of water collected in ml (Z)	Volume of water retained in ml	Water holding capacity (%)
S1	25	50	34	16	64
S2	25	50	37	13	52

Calculations

1) Water holding capacity (Sample S1) = $\frac{(Y-Z)}{X} \times 100$

Water holding capacity (Sample S1) = $\frac{(50-34)}{25} \times 100$

Water holding capacity (Sample S1) = 64%

2) Water holding capacity (Sample S2) = $\frac{(Y-Z)}{X} \times 100$

Water holding capacity (Sample S2) = $\frac{(50-37)}{25} \times 100$

Water holding capacity (Sample S2) = 0.52×100
= 52%

Where X= weight of soil , Y = volume of water pour into soil , Z =volume of water collected in beaker.

Results :-

parameters	S1 (Sawadad)	S2 (Mohahi)
PH	5	5
Bulk density(g/cm ³)	1.11 gm/cm ³	1.14 gm/cm ³
Specific gravity(gm)	2.55 gm	2.51 gm
Moisture content(%)	4.32 %	2.4 %
Water holding capacity(%)	64 %	52 %

Result and discussion

The characteristics of soil within the nearby region are calculated by standard methods as explained in the experimental procedure, before the analysis of soil taken many factors into consideration pH of all soil samples should be in the Acidic range There is an significant difference of bulk density values between sample S1 and Sample S2 . Sample S2 content higher Bulk density as compare to sample S1 . while S1 is having highest specific gravity .Whereas sample S1 content higher Moisture content as compare to sample S2. Water holding capacity of sample S1 is greater than sample S2 .

Conclusion

According to the study the study findings ,as the result of agricultural production in the cultivated land ,there was a decrease in plant nutrients and physical decomposition .depending upon low level of organic compound in these lands ,the physical structures of land should be applied by organic fertilizers and they must be enriched in plant nutrients the cultivation of land should be in minimum depth tillage should be managed to avoid formation of flow pan increasing density .

Brief information about the activity	This report examines the results of a survey conducted by department of sociology college students at villages. The main objective of the survey was to assess the social problems faced by the villagers, including poverty, illiteracy, health issues, and lack of development. The survey was conducted on a sample of 90 villagers, with the data collected and analyzed to draw conclusions. The survey results revealed that the majority of villagers reported that poverty and illiteracy were the most pressing social problems in their village. Other issues highlighted by

	the survey included health issues lack of development and lack of access to basic amenities. The survey results indicate that poverty and illiteracy are the most serious social problems faced by the villagers. Moreover, health issues, lack of development, and lack of access to basic amenities are also significant issues in the village. This indicates that the village is in need of interventions from the government and other organizations to improve the lives of the villagers. This report has examined the results of a survey conducted by college students at their village The results indicate that poverty and illiteracy are the most serious social problems faced by the villagers.

Voter Awareness Report**

The NSS unit has taken Voter Awareness Program to strengthen the democracy. Dr.R.P.Kitke has addressed students about registration for voter ID. He promoted it by expressing that awareness of villagers for voting is very essential for progress of the individual and the nation. It is the basic right of every citizen of India and one must use it consciously and wisely. However, rampant corruption is seen in the local bodies due to ignorance of common people and the lack of honest and effective elected representatives to lead the development work. The elections are dominated by money and muscle power. So at last he added that for conducting fair voting and election programs , all the voters must be made aware.

Report on Pali Language Speaking Workshop

Report:

Introduction: The Pali Language Speaking Workshop was conducted on 14-02-2024 with the aim of introducing participants to the basics of Pali language speaking. The workshop targeted individuals interested in deepening their understanding of Pali, whether for academic, spiritual, or personal reasons.

Workshop Content: The workshop covered fundamental aspects of Pali language, including grammar, vocabulary, pronunciation, and common phrases. Participants were introduced to the unique characteristics of Pali, its historical significance, and its relevance in contemporary contexts.

Activities and Exercises: Various activities and exercises were designed to engage participants actively in learning and practicing Pali. These included group discussions on Pali texts, role-playing scenarios to simulate real-life conversational situations, pronunciation drills, and interactive exercises to reinforce vocabulary acquisition.

Participant Engagement: Participants demonstrated a high level of engagement throughout the workshop. They actively participated in discussions, eagerly took part in role-playing exercises, and showed enthusiasm for practicing speaking Pali with their peers. Despite the challenging nature of learning a classical language, participants remained motivated and committed to improving their skills.

Feedback: Feedback gathered from participants at the conclusion of the workshop was overwhelmingly positive. Many expressed appreciation for the interactive nature of the sessions, citing them as effective for improving their confidence in speaking Pali. Some participants requested more opportunities for conversational practice, while others suggested incorporating multimedia resources to enhance learning.

Outcomes: Overall, the workshop achieved its objectives of introducing participants to the basics of Pali language speaking. Participants demonstrated improved proficiency in pronunciation and conversational skills by the end of the workshop. While mastering Pali remains an ongoing journey, the workshop provided a solid foundation for further study and practice.

Conclusion: The Pali Language Speaking Workshop was a resounding success, thanks to the dedication and enthusiasm of both participants and facilitators. It served as a valuable opportunity for individuals to deepen their understanding of Pali language and culture while fostering a sense of community among like-minded learners. Moving forward, there is a keen interest among participants for follow-up activities and continued support in their journey to mastering Pali language speaking.

Group Discussion: The Role of Mathematics in Solving Real-world Problems

Department of Mathematics, Late. B. S. Arts, Prof. N. G. Science & A. G. Commerce College, Sakharkherda was organized Group discussion on the occasion of National Science Day 2024 on the topic “**The Role of Mathematics in Solving Real-world Problems**” on dated 27/02/2024. In an engaging and insightful group discussion among undergraduate B.Sc. II Year students, the focus was placed on unraveling the pivotal role of mathematics in solving real-world problems. This discussion spanned various sectors, including technology, health, environmental science, finance, and social sciences, showcasing mathematics not just as an academic discipline but as a vital tool in practical problem-solving and innovation. Participants highlighted how mathematics is the backbone of technological innovations, including algorithms that power our smart phones, computers, and the internet, also discussed on the application of mathematical models in predicting disease outbreaks, drug development, and optimizing healthcare logistics. Some participant discussed the challenges and raised about the reliability of data feeding into mathematical models, affecting the accuracy of predictions and solutions. The role of mathematics in global health, particularly in pandemic prediction and management, was highlighted as an area of growing importance and interest. 16 students were participated and 44 students were present for the group discussion. Student discussed Mathematics in Engineering and Technology, Mathematics in Health and Medicine, Mathematics in Environmental Science, Mathematics in Economics and Finance, Mathematics in Everyday Life all these point were discussed in healthy environment.

Ku. Dnyaneshwari discussed on Mathematics in Engineering and Technology

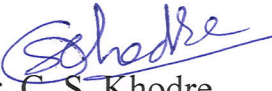

Mr. Purushottam discussed on Mathematics in Environmental Science

Ku. Shital discussed on Mathematics in Everyday Life

Outcome: The group discussion among undergraduate students illuminated the vast and varied role of mathematics in addressing and solving real-world problems. It brought to light the interdisciplinary nature of modern problem-solving, where mathematics acts as a bridge connecting different domains of knowledge to innovate solutions for global challenges. It helps the students to explore their knowledge and give some examples which is helpful in real life. It gives them opportunities to develop their presentation skills, communication skill and update their knowledge of the subject, which helps to develop their interest and self-confidence.

Report on Survey on Social Problem

This report examines the results of a survey conducted by department of sociology college students at villages. The main objective of the survey was to assess the social problems faced by the villagers, including poverty, illiteracy, health issues, and lack of development. The survey was conducted on a sample of 90 villagers, with the data collected and analyzed to draw conclusions. The survey results revealed that the majority of villagers reported that poverty and illiteracy were the most pressing social problems in their village. Other issues highlighted by the survey included health issues, lack of development, and lack of access to basic amenities. The survey results indicate that poverty and illiteracy are the most serious social problems faced by the villagers. Moreover, health issues, lack of development, and lack of access to basic amenities are also significant issues in the village. This indicates that the village is in need of interventions from the government and other organizations to improve the lives of the villagers. This report has examined the results of a survey conducted by college students at their village. The results indicate that poverty and illiteracy are the most serious social problems faced by the villagers.

Objective:

This report examines the results of a survey conducted by college students from the Department of Sociology to assess the social problems faced by villagers in rural communities.

Methodology:

The survey was conducted in villages, targeting a sample size of 90 villagers. The data collected was analyzed to identify prevalent social issues such as poverty, illiteracy, health concerns, lack of development, and inadequate access to basic amenities.

Findings:

The survey results indicate that poverty and illiteracy emerged as the most significant social problems reported by the majority of villagers. Additionally, health issues, lack of development,

and insufficient access to basic amenities were also highlighted as pressing concerns within the village community.

Conclusion:

The findings underscore the urgent need for interventions from governmental and non-governmental organizations to address the identified social problems in the village. Efforts to alleviate poverty, promote education, improve healthcare services, foster development, and enhance access to basic amenities are essential for enhancing the well-being and quality of life of villagers.

Overall, this survey report sheds light on the critical social issues faced by rural communities and emphasizes the importance of collaborative efforts to bring about positive change and uplift the living standards of villagers.
